GOLD PLATED BANANA PLUG SET

The connectors residing at the end of a high-quality cable is of critical importance.

NorStone Cable banana plugs have been, both mechanically and electrically, designed to ensure the best possible connection of your speakers. The screw-fixing system allows an in-line cable connection, for a clean and aesthetic finish. The gold finish of the connectors insures high contact pressure both with the cable and the plug.

Convenient and affordable, NorStone Cable Banana plugs are sold by pack of 4 units (2 red and 2 black) and delivered with a mounting guide.

CLASSIC WHITE

The Classic White line combines the same performance and specification as the Classic line. The only difference is its white outer jacket, which allows an easy integration. In this respect, the Classic White line is more dedicated to a home use.

W150

This cable is ideal to connect small floorstanders, bookshelves and surround speakers in hi-fi or home-theatre systems for length up to 10 meters.

W250

With its 2 x 2.5 mm² wire, the W250 easily delivers full power in any cable length. It will ideally connect hi-fi and home-theatre loudspeakers.

Specification:
OFC 99.99 %, 2 x 1.5 mm².
White outer jacket.
Overall size: 3 x 6 mm.

Specification:
OFC 99.99 %, 2 x 2.5 mm².
White outer jacket.
Overall size: 4 x 8 mm.

CLASSIC

The quality of speaker cables plays a major role in delivering music signal from your source to your loudspeakers.

The Classic line uses ultra pure (Oxygen Free Copper 99.99 %) copper in a transparent outer jacket. Polarity can easily be recognized thanks to the outer jacket geometry (round and square).

CL150

The Classic CL150 is ideal to connect small floorstanders, bookshelves and surround speakers in hi-fi or home-theatre systems for length up to 10 meters.

Specification:
OFC 99.99 %, 2 x 1.5 mm².
Transparent outer jacket.
Overall size: 3 x 6 mm.

CL250

The Classic CL250, with its 2 x 2.5 mm² wire, easily delivers full power in any cable length. It will ideally connect hi-fi and home-theatre loudspeakers.

Specification:
OFC 99.99 %, 2 x 2.5 mm².
Transparent outer jacket.
Overall size: 4 x 8 mm.

CL400

The Classic CL400 is a perfect cable for high voltage loudspeakers. It is an excellent choice for both home and professional uses, due to its inherent ability to stand power and reject noise in any cable length (up to 60 meters without quality loss). At this price point, the CL400 is surely a reference in its category.

Specification:
OFC 99.99%, 2 x 4 mm².
Transparent outer jacket.
Overall size: 4.5 x 10.5 mm.

CL600

The Classic CL600 will please power fans! With its 2 x 6 mm² gauge, it can easily deliver accurate signal in cable length up to 80 meters. It will ideally connect high voltage loudspeakers in both home and professional uses. CL600 performs extremely well when low frequencies have to be delivered.

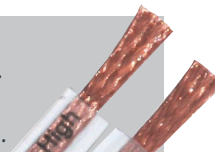

Specification:
OFC 99.99 %, 2 x 6 mm².
Transparent outer jacket.
Overall size: 5.5 x 12 mm.

FLAT WIDEBAND

FB250

The FB250 flat profile allows unobtrusive runs along baseboards and under carpet. Its flexible design will easily route in corners and around doorframes... In other words this cable will be friends with decorators and home integrators. Apart from its real custom installation quality, the FB250 is also audibly superior in many aspects. The conductors consist of a proven flat braiding technique that ends up in a 2 x 2.5 mm² gauge. Its exceptionally low resistance allows the amplifier to exert stunning grip and control on the speaker they drive, especially in the bass. Those cables allow a neutral sound reproduction.

Specification:
OFC 99.99 %, 2 x 2.5 mm².
Transparent outer jacket.
Overall size: 2.5 x 11.5 mm.

SILVER

SV150

The ultra low resistance offered by the silver-plated ultra pure copper conductors of the SV150 ensures a firm grip and transient precision. SV150 redefines expectations and what can be achieved with a cable of this price. This bi-wire cable allows unparalleled musical cohesion and a truly 3-dimensional soundstage with solid, believable images you can almost reach out and touch, even during the most complex musical passages. Every single micro data of the musical signal will surely reach the speaker.

Specification:
Silver-plated OFC conductors, 2 x 1.5 mm².
White pearl outer jacket.
Overall size: 3 x 6 mm.
